

## Ir Amim is seeking an English Social Media Coordinator

Ir Amim is seeking a part-time (50%) coordinator for the organization's social media in English. As our English social media coordinator, you'll play a crucial role in communicating our mission, sharing critical on-the-ground developments and educational material, and engaging with our international audience across X (formerly Twitter), Instagram, and Facebook.

This will require (1) posting timely information regarding on-the-ground developments based on Ir Amim's analysis, (2) developing educational and explanatory content about some of the main topics that Ir Amim deals with (for example, evictions and home demolitions), (3) developing content for social media campaigns around specific topics or struggles.

The position is part of the International Relations Department and will work alongside the department's Director of International Relations and Advocacy and the Coordinator of International Public Outreach. The social media coordinator will also work closely with Hebrew and Arabic-language social media coordinators, particularly by developing and coordinating the implementation of social media campaigns.

### About us

Ir Amim (City of Nations/City of Peoples) is an Israeli non-profit which focuses exclusively on Jerusalem within the context of the Israeli-Palestinian conflict. Ir Amim's mission is to render Jerusalem a more equitable and sustainable city for the Israelis and Palestinians who share it, while helping to advance conditions for an agreed political future and secure equal rights for all. Ir Amim envisions a city that ensures the dignity and welfare of all its residents and safeguards the human and civil rights of both Palestinians and Israelis, while upholding both peoples' historic, religious, and political attachments to Jerusalem.

### Primary Responsibilities:

- Post in a timely manner about on-the-ground developments in order to provide information to decision-makers, journalists, and the general public regarding the different issues monitored by Ir Amim.

- Designing social media posts on Canva or other graphic design software and maintaining a consistent and visually appealing graphic language across posts.
